RE Woorak reserve update

Club parking for PBSC Members 2011 season

Dear Members,

Just to bring you up to speed with the latest in developments relating to the parking area in Woorak reserve and the changes happening currently.

Anthony met with Council last Friday 14th October 2011 and they have confirmed that our club can use the north section of Woorak Reserve ie behind the internal driveway that is to be fenced off with bollards and rails. We have negotiated the provision of two access points to this north section, one about midway along the internal driveway section that is just west of Woorak Road and one off Woorak Road. Access will be via a sliding post (like that on the southern part of the reserve) and Council will give us keys. They are still to confirm that the club will get stickers to enable regular parking when it becomes metered but indicated verbally that it was the way forward.

The Reserve is to be turfed this week and expected to be open by November.

Regards
